MENTAL HEALTH MONTH

WHY DOES MENTAL HEALTH MATTER?

- well-being
- quality of life
- wellness & health
- because you matter

We all have mental health. Having challenges is ok and normal. You are not alone and we are here with lived experience to support you.
MOST COMMON SYMPTOMS:

- [nami.org/about-mental-illness/warning-signs-and-symptoms](nami.org/about-mental-illness/warning-signs-and-symptoms)

WHO’S AT RISK:

- ALL HUMANS

WHAT TO DO:

Reach out for help. We all have mental health, in fact, mental health is health.

You don’t have to feel alone, shame or weak. You are not alone and you are normal. We all need help sometimes to learn new tools or receive support for our wellbeing.

MENTAL HEALTH FOR CHILDREN
What Parents Can Do

NATIONAL FEDERATION OF FAMILIES FOR CHILDREN'S MENTAL HEALTH, FFCMH.ORG • THE YOUTH MENTAL HEALTH PROJECT, YMHPROJECT.ORG

TALK
Talk with your children about their mental health. Make topics around mental health, stress, anxiety, fear and feelings common in your home and in your child’s life.
#weALLhavementalhealth

TRUST
Trust your gut; you know your child best! If you believe your child is struggling or needs help, trust that feeling.
#NoHealthWithoutMentalHealth

ROLE MODEL
Show your children it is ok to talk about and care for their mental health by taking care of yourself.
#ChildrensMentalHealthMatters

ASK FOR HELP
Get a referral to a mental health specialist, if needed. Provides your child with every opportunity to receive treatment and support – just as you would for a broken arm or a fever.

CONNECT
You are not alone; 1 in 5 children experiences a mental health condition. Connect with other families who can offer support, help and resources.

TEAM UP
Build a team with the professionals and child-serving systems involved in your child’s life. An open and honest dialogue with teachers, coaches, doctors and others will give them the information they need to support your child.
